---

Profile:

I'm currently pursuing my Bachelor of Engineering (B.E.) – Computer Science and Engineering degree from B.M.S College of Engineering, Bangalore with (**CGPA 7.31/10**). During my academic experience, I acquired solid academic foundation in Programming Languages like **Java and Python**, and practical experience in **Data structures, Algorithms and Software development**. I also did Projects on **Web Development, App Development, Neural Networks(ML)**, which provided me practical Problem-Solving and Team work experience.

Education:

B.M.S College of Engineering - Basavanagudi, Bengaluru, Karnataka 560004
(Dec, 2022 - July, 2026)

- Current CGPA: 7.31 (74%)
- 12th Percentage: 96%
- 10th Percentage: 94.4

Skills:

- **Programming & DSA:** Java and Python.
- **Web (Full-stack):** MERN stack (MongoDB, Express, React, Node), Bootstrap, Responsive design.
- **Neural Networks/ML:** Experience with supervised/unsupervised learning, neural networks **Graph Neural Networks (GNNs) for social network analysis**.
- **Version Control:** Git, GitHub.

Projects:

- **Social Network Analysis using Graph Neural Network**: Explored preprocessed graph data and implemented baseline models for node/edge prediction. Evaluated model accuracy and documented feature importance and future improvements. Link
- Name: Link
- Name: Link
- Name: Link

Additionally, I have completed certifications in **Full Stack Web Development Bootcamp Certificate, Java Certificate, JavaScript Certificate** that strengthened my expertise in Web Development and Java. Certificate
